

Dr. T. Russell Hsing is IEEE Life Fellow and Fellow for the British Computer Society and SPIE. He accumulated rich R&D experiences of 40 years as technical staff, research/engineering director and executive director through affiliations with Burroughs, Xerox, GTE Labs, and Bellcore/Telcordia/Ericsson since 1977. He is currently Honorary Chair Professor in Computer Science College at the National Chiao Tung University in Taiwan, Advisory Council Member for Harvard Business Review. During his tenure at Telcordia, he has co-established two significant R&D centers in Taipei (Taiwan), and Poznan (Poland). Both centers focused on advanced ICT partnering with local institutions to win significant contract funding from both commercial and local government sources. Since late 2012, he has been visiting professors at numerous universities around the world including Taiwan, US, China, India, Singapore, Korea, and Hong Kong. He is also serving as Board Members/ Board Advisor for several academic spin-offs in US, Taiwan, Poland and Ireland. He had been Board Member for the Open Fog Consortium in 2016-2018. He has been teaching the courses of “Technology Entrepreneurship: From IP to IPO” (since 2014) and “Internet Economics” (since 2017). His research interests include Fog/Edge Computing & Networking, Vehicular Telematics & Services, Wireless 5G & 6G research, Beyond IoT Services/ Applications, and Academic Spin-offs. Currently he is Editorial Board Member for the IEEE IoT Magazine and Advisory Board Member for the IEEE Fog/Edge Professional Community.
